This will be of benefit in arranging the training plan. Applications for Recognition will not be accepted more than 14 days after enrolment.

Pinnacle has developed the following two Recognition pathways:

- Credit Transfer
- Customised Recognition

Credit Transfer

Credit Transfer is a process that provides students with agreed and consistent credit outcomes for components of a qualification based on identified equivalence in content and learning outcomes between matched qualifications or units of competency.

Documentary evidence of an AQF Certificate or Statement of Attainment is required in order to receive credit transfer. An administrative process is undertaken to verify the validity and currency of the information and documentation provided.

Full or partial credit transfer may be granted. Full credit transfer means that the student will not have to complete that unit again. Partial credit transfer means that the student will be required to provide further evidence and/or undertake some gap training or assessment. This would then be classified under Customised Recognition.

Customised Recognition

Customised Recognition allows students to be granted recognition based upon an assessment of their previous learning, experience, current knowledge and skills or a combination of these. Customised Recognition is an assessment of the student's formal and informal learning, skills and knowledge to determine the extent to which that student has achieved the required learning outcomes for a unit of competency in respect to a qualification, or part qualification.

Pinnacle has developed the following types of customised recognition services

- Portfolio of evidence
- Assessment only
- Individual assessment

Types of evidence

The evidence presented must clearly relate to the unit of competency, including its elements and performance criteria. There are two main types of evidence that can be used to demonstrate competence:

- direct evidence
- indirect evidence

Direct evidence provides students with the opportunity to directly demonstrate the required skills and knowledge as outlined in the unit of competency to the assessor.

Indirect evidence is information about student skills and knowledge which is submitted in a portfolio and which allows an assessor to make a judgement of competence.

Recognition Fees

There are assessing and administrative process associated with credit transfer and customised recognition.

The course fees are inclusive of online assessment or recognition.
